The 2007 400 models were known for wire harness problems. The service manual is in the link below. You will have to check to make sure you don't have broken wires from the sensor to the CDI. 2006 and earlier models did have an issue with the stator magnets becoming unglued, but this was solved in the 2007 models. I had that machine for 9 years and put 16,000 miles on it and never had a stator ...
