Aston Martin is now more than a century old – and what a century it has been. Since its birth in London on the eve of the First World War, the company has experienced the highs of racing triumph – most famously in the 1959 Le Mans 24-hour race – and the lows of bankruptcy, yet throughout it all has been in the first rank of British marques. Published in association with the Aston Martin Heritage Trust and written by enthusiast Richard Loveys, Aston Martin is a fully illustrated history of the company that has created some of the the world's best loved and most widely respected cars, including James Bond's iconic DB5. It covers the cars themselves, the personalities and talents who have shaped Aston Martin from owners to engineers, the drivers who have shared with the company in racing glory, and the centenary celebrations of 2013.

The name of David Brown is synonymous with the glory days of Aston Martin, when a tiny British sports car company was rescued from near-extinction and turned into a marque that could compete with Ferrari--and win. Stylish design, lavish illustration and meticulously researched text come together in this large-format, 224-page book to create a superb celebration of the 70th anniversary of DB Aston Martins in 2017. There 's a wealth of detail on the Aston Martin DB road and race cars, both from the David Brown era of 1947-1972 and the modern DB era from 1993 onwards, together high quality images and specification tables for all the key models. Aston Martin DB 70 Years is a fitting celebration of one of the world's most enduring sports cars. The fast, beautiful sports cars that Aston Martin built under Brown 's ownership won the Le Mans 24-hour race and the World Sports Car Championship, and provided James Bond with his most famous transport: the ejector-seat equipped DB5 that won acclaim in Goldfinger. Though the DB era ended when Brown sold the company in 1972, its influence continued to be felt. James Bond 's most recent car, the specially-made DB10, and Aston Martin has just launched its most complete car ever, the DB11. " DB " means as much to Aston Martin now as ever.

Franklin, Jack, Marla, Thadus, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now!) Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasts, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.
