Students who complete Alif Baa should reach a novice-intermediate to novice-high level of proficiency.

For decades, students learning the Arabic language have begun with Modern Standard Arabic (MSA) and then transitioned to learning spoken Arabic. While the MSA-first approach neither reflects the sociolinguistic reality of the language nor gives students the communicative skills required to fully function in Arabic, the field continues to debate the widespread adoption of this approach. Little research or evidence has been presented about the effectiveness of integrating dialect in the curriculum. With the recent publication of textbooks that integrate dialect in the Arabic curriculum, however, a more systematic analysis of such integration is clearly becoming necessary. In this seminal volume, Mahmoud Al-Batal gathers key scholars who have implemented integration to present data and research on the method's success. The studies address curricular models, students' outcomes, and attitudes of students and teachers using integration in their curricula. This volume is an essential resource for all teachers of Arabic language and those working in Teaching Arabic as a Foreign Language (TAFL).

The first volume in the bestselling Al-Kitaab Arabic Language Program, Alif Baa helps students learn the sounds of Arabic, write its letters, and begin speaking Arabic. The accompanying companion website offers fully integrated exercises to use alongside the text.

This Arabic language textbook program uses a communicative, proficiency-oriented approach with fully integrated audio-visual media to teach modern Arabic as a living language. Intended primarily for college and graduate students but accessible enough for anyone interested in learning modern Arabic, the series focuses on developing skills in standard Arabic and gradually introducing students to the most widely spoken dialect in the Arabic-speaking world. Newly packaged with a set of three audio CDs, Alif Baa, Introduction to Arabic Letters and Sounds is the first part of the Al-Kitaab language program. In teaching the sounds and letters of Arabic, Alif Baa provides a variety of exercises aimed at developing all skills: reading, listening, writing, speaking, and cultural understanding. Along with an English-Arabic glossary, Alif Baa lays the groundwork for the rest of the Al-Kitaab language program.

An Introduction to Language introduces students to the fascinating study of human language. Engagingly and clearly written, it provides an overview of the key areas of linguistics from an Australian perspective. Unique to this text, the International Phonetic Alphabet is represented by both HCE and MD versions, allowing lecturers to use whichever IPA system they prefer.
