Life Cycle Sequencing Activities - Activity Village
Bohanza is a German-style card game based on the game mechanics of trading and politics, designed by Uwe Rosenberg and released in 1997 by Amigo Spiele and by Rio Grande Games. It is played with a deck of cards with comical illustrations of eleven different types of beans, which the players are trying to first plant and then sell in order to raise money. The principal restriction is that players may only farm two or three types of beans at once, but they obtain beans of all different types rand
