Bellanca super Decathlon Acrobatics

The plane I am flying at the moment is a Bellanca Super Decathlon from 1978. It is a two-seater airplane where you sit in tandem. It has a 4 cylinder Lycoming engine with 180 hp, with inverted fuel and oiling Systems. It had a big major overhaul on the airframe 2016, and also got a completely new engine 1 years ago. The plane also have new metal wings instead of the old wooden wings. So the ...

The American Champion 8KCAB Decathlon and Super Decathlon are two-seat fixed conventional gear light airplanes designed for flight training and personal use and capable of sustaining aerobic stresses between +6g and ?5g. The Decathlon entered production in the United States in 1970 as a more powerful and stronger complement to the American Champion Citabria line of aircraft.

Bellanca aerobic instruction manual Decathlon Citabria. This is the manual that came with your new bellanca in the 1970s, color, shows various aerobic maneuvers and how to execute them in your new bellanca

Bellanca aerobic Workshop Service Repair Manual

The Bellanca Decathlon has a reputation as a fantastic aerobic training plane and in our experience, they are fairly rare in the skies over here. However, the aviation grapevine tells us a certain Top Gear TV presenter James May has one, which is quite unusual in itself as he is known as Mr Slow and this little trooper of a plane is certainly no slow-coach!

Bellanca Aerobic Instruction Manual Decathlon Citabria
I just bought a Pilot Bellanca Decathlon 1/4 scale (96" WS) kit today for \$100! It is about 60% constructed already. The guy who built it moved twice during the build so I am going to have to spruce up some cracks and such but all in all it is a very solid plane and for \$100 with all of the work he put into it I CANNOT complain!
