First book of this new collection (Learning series) in a small format. In this volume dedicated to paint different types of wood, planes, ships, tools, accessories etc.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after

each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

'An intricate and brilliantly written psychiatric perspective on the most perplexing of crimes' Kerry Daynes, author of *The Dark Side of the Mind* 'Beautifully written and very dark' Nimco Ali OBE 'Whodunnit' doesn't matter so much, not to a forensic psychiatrist. We're more interested in the 'why'. In his twenty-six years in the field, Richard Taylor has worked on well over a hundred murder cases, with victims and perpetrators from all walks of life. In this fascinating memoir, Taylor draws on some of the most tragic, horrific and illuminating of these cases - as well as dark secrets from his own family's past - to explore some of the questions he grapples with every day: Why do people kill? Does committing a monstrous act make someone a monster? Could any of us, in the wrong circumstances, become a killer? As Taylor helps us

understand what lies inside the minds of those charged with murder - both prisoners he has assessed and patients he has treated - he presents us with the most important challenge of all: how can we even begin to comprehend the darkest of human deeds, and why it is so vital that we try? *The Mind of a Murderer* is a fascinating exploration into the psyche of killers, as well as a unique insight into the life and mind of the doctor who treats them. For fans of *Unnatural Causes*, *The Examined Life* and *All That Remains*. MORE PRAISE FOR THE MIND OF A MURDERER: 'A fascinating insight into what drives criminality - and a punchy polemic against mental-health service cuts' Jake Kerridge, *Sunday Telegraph* 'A fascinating, well-written and compelling account of the mental state in homicide' Alisdair Williamson, *TLS* 'A dark, fascinating and often surprising glimpse into the minds of those who kill, from a forensic psychiatrist who's seen it all' Rob Williams, writer of BBC's *The Victim* 'An excellent, engaging and honest book, full of interesting, powerful and important observations' Alison Liebling, Professor of Criminology and Criminal Justice, University of Cambridge

An account by Mary and Anne Wilson of their travels in Europe from January to October 1847 with their brother John.; Mary kept a detailed diary of everything they did and saw. She describes the local museums, ruins and other sights of each place they visit. She also notes the local habits, diet and costumes of the people they encounter and gives her opinion of them.; Her sister Anne was an artist and kept a constant record of their travels. The book is illustrated with reproductions of both

her sketches and watercolours.;The narrative gives an insight into the social history not only of the areas they visited but of the attitudes of these Victorian women abroad.

DIVIn Porsche 911: 50 Years, bestselling author Randy Leffingwell celebrates a half-century of one of the world's premiere sports cars, focusing on the major themes that have defined Porsche's rear-engined wonder. He tells the whole story — design and development, racing and competition, engineering and technology, style and culture. All the iconic 911 models are included: the original 901 prototype that set the standard; the legendary RS models that made the little Porsche a dominant force on the world's racetracks; the infamous Turbo, the car that kept the performance flame alight during the dark, dismal decade of the 1970s; the fabled 959, the model that redefined the term "sports car"; the 993, last of the original air-cooled models; and the 996, 997, and 991, the liquid-cooled cars that brought the 911 into a new millennium. But beyond telling the story of the cars, this book also spotlights the people behind them: Ferdinand "Butzi" Porsche, the son of legendary Porsche founder Ferdinand "Ferry" Porsche, who co-designed the instantly recognizable 911 shape; Peter W. Schutz, the Porsche CEO who saved the 911 from extinction; and Dr. Helmuth Bott, the engineering genius behind many of the groundbreaking technologies that have defined the 911, including

fuel injection, turbocharging, and all-wheel-drive. Leffingwell also tells the story of the 911 community — the clubs and culture that surround the car. Together, all of these facets make Porsche 911: 50 Years the most essential book in any Porsche fan's library./div
