Next review due August 2021. Chiropractic is a healthcare profession focusing on diagnosing and treating disorders that affect your bones, muscles and joints. Chiropractors mainly focus on manipulation of the spine, but they may use other techniques too. Chiropractors have a special interest in problems causing neck and back pain.

Chiropractic for back pain | Health Information | Bupa UK

Chiropractors use a range of techniques to reduce pain, improve function and increase mobility, including hands-on manipulation of the spine. Chiropractic care mainly involves safe, often gentle, specific spinal manipulation to free joints in the spine or other areas of the body that are not moving properly. These are known as 'adjustments'.
