Next Generation Science Standards Next Generation Science Standards (NGSS) Outlines the new K–12 science standards based on the Framework for K–12 Science Education developed by the National Research Council. These standards are rich in content and practice, arranged in a coherent manner across disciplines and grades, and provide an internationally benchmarked science education to all students. Toolkits for Educators

~~Science / Next Generation Science Standards~~

The Next Generation Science Standards (NGSS) are K–12 science content standards. Standards set the expectations for what students should know and be able to do. The NGSS were developed by states to improve science education for all students. A goal for developing the NGSS was to create a set of research-based, up-to-date K–12 science standards.

~~Next Generation Science Standards~~

The ILS-Science are designed to help students acquire a deep understanding of core science and engineering content and ideas as well as experience applying that knowledge in any context. Students will demonstrate their scientific proficiency by engaging in practices that demonstrate the ability to apply scientific concepts.

teaching and learning. Setting high standards enables students, parents, educators, and citizens to know what students should have learned at a given point in time. In Wisconsin, all state standards serve as a model. Locally elected school boards adopt academic standards in each subject area to best serve their local communities.

~~Wisconsin Academic Standards for Science~~

The standards forefront scientific practices that use and go beyond the inquiry process to arrive at reasoned and justifiable rationales for interpretations of phenomena/events. A Framework for K-12 Science Education , released by the National Research Council (NRC) in July 2011, identifies the key scientific ideas and practices all students should learn by the end of high school.

~~Science | CDE~~

Science K–12 Learning Standards The Washington State 2013 K-12 Science Learning Standards (WSSLS) are the Next Generation Science Standards. These standards describe what students should know and be able to do at each grade level. New assessments are being developed based on these standards and will be administered in spring 2018.
