2020 has been the toughest year we've ever had. Our work with vendors is more vital, and more challenging, than at any time in our history. While vendors are temporarily unable to sell the magazine on the streets in England, we urgently need your support to help us and help our vendors through the Covid-19 pandemic this Christmas.

Managing Service, Education and Knowledge Management in the Knowledge Economic Era contains papers that were originally presented at the 2016 International Congress on Management and Technology in Knowledge, Service, Tourism & Hospitality (SERVE 2016), held 8-9 October 2016 & 20-21 October 2016, in Jakarta, Indonesia & at the Vladimir State University, Vladimir, Russia. The contributions deal with various interdisciplinary research topics, particularly in the fields of social sciences, education, economics and arts. The papers focus especially on such topics as language, cultural studies, economics, behavior studies, political sciences, media and communication, psychology and human development. These proceedings should be of interest to academics and professionals in the wider field of social sciences, including disciplines such as education, psychology, tourism and knowledge management.

Globalization has fueled the growth of entrepreneurship. Starting a new venture involves risk taking as well as capital investment. This book delves into all the varied aspects of entrepreneurship. The impact of economic policies, finances, opportunity and capacity are some of the topics covered in this text. It will prove beneficial to students, scholars, professionals, aspiring entrepreneurs, etc.

This book analyses state-of-the-art techniques in business process management as drivers of advanced entrepreneurship, financial management, supply chain management, and sustainability management. The role of management in a rapidly-changing environment and the use of innovative methods and techniques to address and solve key management problems are also explored.

These proceedings represent the work of contributors to the 10th European Conference on Innovation and Entrepreneurship (ECIE 2015), hosted this year by The University of Genoa, Italy on the 17-18 September 2015. The Conference Chair is Prof Luca Beltrametti and the Programme Co-chairs are Prof Renata Paola Dameri, Prof. Roberto Garelli and Prof. Marina Resta, all from the University of Genoa. ECIE continues to develop and evolve. Now in its 10th year the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The scope of papers will ensure an interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and growing area of research. The opening keynote presentation is given by Marco Doria - Mayor of Genoa on the topic of Innovation and entrepreneurship in Genoa: past, present and future. A second keynote will be given by Flavia Marzano from the National board for innovation and Italian digital agenda on the topic of Innovation: New visions not just new technologies. The second day Keynote will be given by Roberto Santoro, President of the European Society of Concurrent Engineering Network

(ESoCE Net) on the topic of People Olympics for healthy and active living: A people driven social innovation platform. In addition to the main themes of the conference there are a number of specialist mini tracks on topics including Innovation and strategy, Entrepreneurship education in action, The theory and practice of collaboration in entrepreneurship and Challenges for entrepreneurship and innovation in the 21st Century. With an initial submission of 275 abstracts, after the double blind, peer review process there are 88 Academic research papers, 6 PhD research papers, 1 Masters Research paper, 4 work-in-progress papers and 1 Non-academic paper published in these Conference Proceedings. In today's society, it is not only desirable but essential for a business to take on a global edge. The best way to ensure a successful future is to educate business students about global policies currently at play. *Diverse Contemporary Issues Facing Business Management Education* discusses the issues that are facing both large and small corporations and the students who are seeking employment there. Questioning not only what changes globalization has brought to the business world, but what ways our education system will have to change to keep up, this book is an essential reference source for business owners, educators, students, or anyone interested in the future globalization of the business market.

Information is considered essential in every business model, which is why staying abreast of the latest resources can help combat many challenges and aid businesses in creating a synthesis between people and information, keeping up with evolving technologies, and keeping data accurate and secure. *The Handbook of Research on Knowledge Management for Contemporary Business Environments* is a critical scholarly publication that examines the management of knowledge resources in modern business contexts. Including a wide range of topics such as information systems, sustainable competitive advantage, and knowledge sharing, this publication is a vital reference source for managers, academicians, researchers, and students seeking current research on strategies that are able to manage the information in more than one context for present and future generations.

There is a high demand in our society to adopt emerging technologies in all aspects of business and economic activity. As traditional business practices and economic activity are occurring in a global context, new areas of economic development are being recognized as the key enablers of wealth and income production. *International Business Strategy and Entrepreneurship: An Information Technology Perspective* discusses innovative solutions to research problems and high performance systems while emphasizing the role of IT and management for sustainable development. This book brings together academics, researchers, entrepreneurs, policy makers and government officers aiming to contribute to the debate of technology related to international business and strategic management.

New Challenges for Future Sustainability and Wellbeing is a collection of studies about sustainability and related challenges, such as income, wealth, the environment, education and regional equality that influence the pace of economic development and affects the well-being of people and organisations all over the world.

This volume presents theoretical and empirical research on universities and their entrepreneurial ecosystems to better grasp the connections between universities and their surrounding environments and their engagement with sustainability. The book provides a better understanding of the entrepreneurial characteristics of universities. It examines the ways in which universities' collaboration and participation in an ecosystem support business and industry transformation. It also investigates how universities function within the university/industry/government/third sector relationship nexus. The book enables the systematisation of the literature while simultaneously builds theory, empirically testing existing theories, and contributes towards a future research agenda geared towards sustainability. The book gathers contributions from varied geographical contexts providing an international perspective.

This contributed volume introduces the innovative landscapes and business models used in tourism entrepreneurship initiatives of Portugal and Spain. It provides benchmarks for entrepreneurial initiatives covering tourism services, place-branded tourism, social networks, spiritual tourism, cross-border tourism initiatives, and tourism in low-density regions. It also provides guidelines for future strategic actions to foster rural and sustainable development in alternative tourism destinations, following the Iberian experience.
