Flowserve Valves, Actuators & Positioners. As one of the UK's
largest independent distributor of Flowserve valves, actuators &
positioners, Flow Control Solutions works alongside Flowserve to
ensure your expectations are constantly exceeded. We can supply
you with all the products within the Flowserve range, including
Argus trunnion mounted ball valves, Valtek control valves and NAF
valves designed for the paper and pulp industry.

The SLD seal support system from Flowserve dispenses lubrication to the atmospheric side of mechanical seals. It is ideal for seals subjected to periods of dry running or cavitation when product liquid (pumpage) does not provide adequate film between seal faces. The SLD is proven to greatly extend flushless seal life in harsh slurry conditions.

Worcester Flowserve V-Flow control valves use Worcester's revolutionary metal-seat technology, combined with a process ball-valve, to deliver exceptional modulating-control that also minimise the typical problems associated with traditional control valves. Typical V-Flow control valve configurations include flanged ball-valves machined to ANSI/DIN standards in reduced/full bore and three-piece valves for cryogenic, high pressure, steam, diverter or sampling.
