The Stories Behind The Stars. Since ancient times, constellation myths have told the tales of gods and monsters, heroes and villains, and other legends using only the stars in the night sky. Each of the 12 zodiac sign meanings can be found in these myths, along with their origins. People have looked upon the stars since the beginning of time, divining meaning out of the seemingly random specks of light that dot the sky.

Most of the goddesses who were linked to Virgo were considered fertility goddesses, or goddesses of the harvest. This resonates with the view of Virgo being the caretaker of mankind through her fertility. This includes Ishtar (Babylonian mythology), Isis (Egyptian mythology), Ceres (Roman mythology), and Demeter (Greek mythology). The constellation Virgo is thought to be a woman holding a spike of corn, thus reinforcing the Harvest Mother mythology.

Gaia was the earth goddess and Tartarus was a murderous bottomless pit. Some myths say that Hera wanted to create a god more powerful than Zeus, so she had these two gods give birth to Typhon. Typhon is also known as Typhoeus, Typhaon, Typhos, Typho and by many other names, but the story still remains the same.
