MPSs in academia is clearly apparent.

However, in industrial companies, their usage remains low. The programming of MPSs is still the big obstacle, and solving this software problem is sometimes referred to as one of the most challenging tasks of the 1990's. The 1994 working conference on "Programming

Where do writers of fiction get their ideas? Clayton Koelb here takes issue with those who regard inspiration or imitation as primary forces influencing literary invention. He finds that another mechanism, which he calls "rhetorical construction," underlies

Where To Download I

Dinosaur much fiction and some nonfiction as well.

Rhetorical construction, Koelb says, is a way of producing writing out of reading. The rhetorical writer begins by discovering an interpretive crux in a familiar text—a passage from the Bible, for example, or a commonplace expression—and then

Where To Download I

Proceeds to imagine a fictional situation in which all the meanings of the passage, contradictory though they may seem, may be realized. According to Koelb, "inventions of reading" do not stop with the discovery of the eternal and inevitable deconstructibility of language; they somehow generate an urge to put

language back together through the invention of a fictional world.

Among the texts he discusses are writings by Boccaccio, Rabelais, Goethe, Schiller, Kleist, Hawthorne, Hans Christian Andersen, Nietzsche, Kafka, Calvino, and Flannery O'Connor.
