there must be something leaking internally when hot. 230 oil temp is really hot, full load oil temp max spec is 208. oil pressure is 10psi min at idle and 72psi at full load.

Low oil pressure when hot, 2012 IHC with maxxforce 13, yes

...

I'm working on a 2012 Maxxforce 7 that sets fault SPN 100 FMI 18 "Engine Oil System Below Warning Pressure". This one has us stumped. According to the service manual the criteria for setting the fault is when the oil pressure drops below 12 psi at certain RPM's and for a certain amount of time. The oil pressure reading through Navistar Engine Diagnostic software is 60 psi and at the diagnostic port with a pressure gauge we are getting 80 psi when the fault

becomes active.

Maxxforce 7 Oil Pressure Fault - School Bus Fleet Magazine ...
One experience I had with a Cat engine with low oil pressure after a rebuild. We changed the pump, regulator etc, etc trying to track down a low oil pressure issue. Finally we dropped the pan and pulled a bearing cap off. Standard bearings had been installed and the engine crank had been machined and needed oversized bearings.
