their paths. To get to the Witch's Reign, you first must pass through the Dragon's Ground. Full of dragons, who for the record, do not like trespassers. This is where I am headed, though my mentor has forbidden me. My best friend was sent with a team into the Witch's Reign to recover a powerful jewel that belongs to our mentor, and they are long overdue to come back. That leaves me, Zamira "Reckless" Wilson to go after my friend. Forbidden or not. Somehow, I get saddled with a human male tagging along for the ride. A human that is as weak and useless as my own shifting abilities. Throw in a sentient magical weapon that tries to kill me every time I touch it, and a small dragon that has a penchant for Shakespearean insults, and you've got my journey in a nutshell. May the sands of the desert swallow me whole because this is going to be a damn bumpy ride. Dragon's Ground (Book 2) Dragons and danger and magic collide... And it's only Monday. We survived the land of the Witch's Reign, that much is true. But our arrival home is far from welcome. My idiot brother has taken it upon himself to ride off in search of a mythical healer, someone who might help him walk again. Assuming she doesn't eat him first. Because said healer is a dragon and happens to reside in the deepest reaches of the Dragon's Ground. Like I said, idiot. I'd go after him myself, but his leave-taking is not the only problem I face. My mentor has yet again forbidden me to leave the safety of the Stockyards. Her reasoning? That I am too weak to weather the coming storms. With my pride wounded in more ways than one, I must gather the few allies' I have left. My ex-husband's new girlfriend at the top of the list and a goat bleating, oversexed Satyr. FML. If I'm lucky I'll find a small dragon and a Jinn whose blue eyes still haunt my dreams along the way. Buckle up, buttercup, this ride is about to take a seriously unforeseen twist. Jinn's Dominion (Book 3) There was nothing that could have prepared me for Dragon's Ground. And I thought that

nothing could be worse than what I faced there. Just my black cat bad luck, the world is set to prove me wrong. South lies the Jinn's Dominion and within it the members of my Pride who need my help. The further south we go, the more danger comes not only from outside our group but from within. Ishtar's new hunters. Marsum leader of the Jinn. And the Emperor himself. All three want something from me. All three claim they can give me the world on a silver platter, to give me my deepest desires. Color me cautious, but I think all three are lying. Or so it seems until I reach the Jinn's Dominion and discover the truth... About who I really am. And what that means for my fate and the fate of those I love.

In the world where walls keep the supernaturals apart from the humans, there is magic and quests that still need questing. Yes, quest as a verb. I, Zamira "Reckless" Wilson, thought I had done my part. With a little help from those I love, we stopped the bad guys from mucking up our side of the wall. We won the battle and were left standing on this side of the dirt. Easy peasy lemon squeezy. But I was cursed once to have everything in my life go wrong, and it feels like that curse has come full circle. There is darkness in the east, and it flows toward the desert I've sworn to protect, a creeping floodwater you cannot see until it is upon you. That power has stolen Mak's magic. It has stolen Lila's ability to shift. And it has stolen my newfound strength. We are back to square one, and we are about to face off against an unknown enemy. I have only one thing to say. "Once more unto the breach, dear friends, once more."

It is May 1943. On the remote island of Bougainville, in the South Pacific, a squad of United States Marines beats their way through the thick jungle. They've landed to do battle with the

Japanese soldiers on the island, but in short order, they begin to realize that the forbidding battleground holds an ancient secret a hundred times more terrifying than any enemy army---especially when they start finding the bodies. Flash-forward to July 2008. In the slums---and the skyscrapers---of Boston, a new kind of depraved serial killer is stalking human prey and terrifying the city. The bodies have been found posed and mutilated in bizarre ways that the two police officers in charge of the case have never seen before---and never want to see again. Are the two scenarios connected? Detectives Jefferson and Brogan have no idea that to solve the biggest case of their careers, their investigation must take them around the world and through time and history---from a mysterious salvaged submarine with a shocking secret, to an inhumane prison where the inmates are even more scared than usual of "the Pit," and finally back to the beginning: the sinister island in the South Seas where something inhuman has been biding its time. Matthew B.J. Delaney's *Jinn* won the 2003 International Horror Guild Award for Best First Novel.

in a Dangerous School of Magic, from Bestselling Authors K.F. Breene and Shannon Mayer You don't choose The Academy. The Academy chooses you. I had no idea how those words would change my life, until the day the most dangerous man I've ever met waltzed onto my farm and left us a death sentence. My younger brother has been chosen for The Academy: the prestigious, secret school of magic hidden within the folds of our mundane world. A place where there's no guarantee you'll make it out alive. If he doesn't go, our entire family will be killed. It's the same invitation my older brother received three years ago—and he never came home. The Academy has already killed one sibling, and I'll be damned if they take another. So I do the only thing an older sister can: chop off my hair, strap on two bras to flatten the girls, and take my brother's place. Magic and monsters are real. Assassins are coming for me, and the dead are prone to rise. What's a girl faking it as a boy supposed to do? Being accepted into an elite school of magic, monsters, and assassins was not my idea of higher education. But here I am, fighting my way through the deadly physical and mental tests of the Culling Trials to claim my right to be taught. In a cutthroat world where no one is as they seem, the golden rule is simple: Trust no one. The Academy tells us we should just look out for ourselves. That we should leave the fallen behind and ask no questions. Not on my watch.

A world religion since its inception in the seventh century A.D., Islam is today seeking vigorous answers to contemporary problems through its multi-faceted history. Issues of poverty and wealth, inequality and demands for political expression, and respect for diversity in a difficult world of conformity are dealt with in this series. The study is organized along thematic rather than chronological lines and thus it is not necessary to read the volumes in order. Volume II is in fact the first to have been published.
