Perfect book for younger boys who are just starting to have questions, or who have started puberty earlier than usual. This book explains a lot without giving too many explicit details. Other books we ordered went into detail about masturbation and sexual activity, but this book stays away from those topics.

But the problem is more complex than just stereotypes. In 2009, two researchers at the Massachusetts Institute of Technology in Cambridge investigated why fewer girls than boys rise to the top levels of math competitions. They looked at data from AMC events. Hoping to better understand this gender gap, they focused on high-achievers.
