Trans(in)fusion is a highly original book that tries to radicalize our ways of 'critical thinking' across disciplines. The book, refreshingly, brings into play critical philosophy, literary criticism, studies in mathematics, physics, chemistry and developmental biology, and various other disciplines and epistemes to set up a tenure and tenor of 'critical thinking'. The book is an exclusive intervention in how thinking across traditions and systems of thought can generate distinct interpretive experiences. It questions, in a unique transcultural and transversal bind, our ways of hermeneutic and literary-cultural thinking. Trans(in)fusion resets the dialectics between text and theory.

Going Till You're Gone encourages Christians to develop and maintain a Kingdom-focused vision that will guide the latter years of their lives. It calls for a careful examination of the use of our resources. It appeals to older soldiers to encourage younger believers in the battle and to passionately help lead the charge. It helps readers imagine what is possible when a life is sold out for Christ. Most of all, Going Till You're Gone is a plea for godly examples—for older men and women who demonstrate a Kingdom-focused vision all the way to the finish line.
