Meeting the healthcare needs of people experiencing ...

As the number of people with multiple health conditions grows, meeting their needs will be one of the biggest challenges facing the NHS. People with multiple conditions often have poorer quality of life and greater risk of premature death.

Understanding the health care needs of people with ...

Introduction. Receiving health care services can improve a person's physical, mental and social health, quality of life and life expectancy. Barriers to accessing health care, on the other hand, can lead to unmet health needs, a lack of preventive services, and preventable, costly hospitalizations. But in many parts of the country, especially in rural and other underserved areas, the supply of health care providers cannot keep up with the demand for services.

Meeting Health Care Needs With an Emerging Workforce

safely meet the health care needs for Children and Young People (CYP) in various settings, this document will set out key elements and factors for consideration and is applicable to health care professionals working with CYP up to the age of 25 years. The guidance covers CYP with both long term conditions and complex physical health

Meeting Health Needs in Educational and other Community ...

Meeting the health care needs of people in care homes. Categories: Public. In March 2012, we published the results of a review of how the healthcare needs of care home residents are met. The review addressed how older people and people with learning disabilities living in care homes access healthcare services, whether they have choice and control over their healthcare and whether they receive care that is safe and respects their dignity.

Meeting the needs of patients: Improving strategic ...

The first stage in getting any social care is for the local authority to assess your needs, called a needs assessment. This is so the local authority (local council) can gain a full picture of what kinds of care and support needs you have, so they can make informed decisions about whether you're eligible for support.

Needs assessments | Mind, the mental health charity - help ...

The determination, therefore, that an individual has a primary health need is paramount to securing continuing healthcare funding to meet the costs of care for an individual in full. Continuing healthcare funding is not in any way, shape or form means tested and as confirmed by the National Framework, meets the cost of care in full, including accommodation and associated costs.

Paragraph 33 of the national framework states that if an individual has a primary health need they are eligible for NHS continuing healthcare and therefore the NHS is responsible for meeting all of that person's assessed health and social care needs, including accommodation if this is part of the overall need.

What are primary health needs? Demystifying NHS continuing ...

People can recognise this by being as supportive as possible. Carers, friends and family, can help a person with dementia to feel valued and included. Support should be sensitive to the person as an individual, and focus on promoting their wellbeing and meeting their needs.

Understanding and supporting a person with dementia ...

If you think you, or someone you know, needs help to cope day-to-day, the first step is to get a needs assessment from your local council. You'll need to have this assessment before the council can recommend a service such as: equipment like a walking frame or personal alarm changes to your home such as a walk-in shower

Getting a social care needs assessment - NHS

NHS continuing healthcare is for adults. Children and young people may receive a "continuing care package" if they have needs arising from disability, accident or illness that can't be met by existing universal or specialist services alone. Find out more about the children and young people's continuing care national framework.

NHS continuing healthcare - NHS

Effective assessment of needs requires appropriate services to meet those needs. Most older people wish to stay in their own homes and remain independent for as long as possible, with the right support, and this is also true of older people with mental health needs.
