BY THE AUTHOR OF NEW YORK TIMES BESTSELLER THE AUTHENTICITY PROJECT, THE BRAVE AND FUNNY MEMOIR THAT IS CHANGING LIVES. How one mother gave up drinking and started living. This is Bridget Jones Dries Out. Clare Pooley is a Cambridge graduate and was a Managing Partner at one of the world's biggest advertising agencies, and yet by eighteen months ago she'd become an overweight, depressed, middle-aged mother of three who was drinking more than a bottle of wine a day, and spending her evenings Googling 'Am I an alcoholic?' In a desperate bid to turn her life around, she quit drinking and started a blog. She called it Mummy Was a Secret Drinker. This book is the story of a year in Clare's life. A year that started with her quitting booze having been drinking more than a bottle of wine every day. It sees her starting a hugely successful blog, then getting and beating breast cancer. By the end of the year she is booze free and cancer free, two stone lighter and with a life that is so much richer, healthier and more rewarding than ever before. Sober Diaries is an upbeat, funny and positive look at how to live life to the full. Interwoven within Clare's own very personal and frank story is research and advice, and answers to questions like: How do I know if I'm drinking too much? How will I cope at parties? What do I say to friends and family? How do I cope with cravings? Will I lose weight? What if my partner still drinks? And many more.

Would life be better without alcohol? It ' s the nagging question more and more of us are finding harder to ignore, whether we have a " problem " with alcohol or not. After all, we yoga. We green juice. We meditate. We self-care. And yet, come the end of a long work day, the start of a weekend, an awkward social situation, we drink. How different would our lives be if we stopped drinking on autopilot? If we stopped drinking altogether? Really different, it turns out. Really better. Frank, funny, and always judgment free, Sober Curious is a bold guide to choosing to live hangover-free, from Ruby Warrington, one of the leading voices of the new sobriety movement. Changing your habits can be hard without the right tools. This is especially true for alcohol because habits are, by definition, subconscious thought processes. Through her methodical research of the latest neuroscience and her own journey, Annie Grace has cracked the code on habit change by addressing the specific ways habits form. This unique and unprecedented method has now helped thousands redefine their relationship to drinking painlessly and without misery. In The Alcohol Experiment, Annie offers a judgment-free action plan for anyone who's ever wondered what life without alcohol is like. The rules are simple: Abstain from drinking for 30 days and just see how you feel. Annie arms her readers with the science-backed information to address the cultural and emotional conditioning we experience around alcohol. The result is a mindful approach that puts you back in control and permanently stops cravings. With a chapter and journal prompt devoted to each day of the experiment, Annie presents wisdom, tested strategies, and thought-provoking information to supplement the plan and support your step-by-step success as you learn what feels good for you. It's your body, your mind, and your choice.
