What makes this book different is that its author KNOWS this exam. He has worked with over 1000 students since 1999 on the MTEL. Most MTEL books are written by professors who have never personally worked with any MTEL student. How can they really know about this exam? Many books and Internet products are actually written for other states' exams. They only CHANGE THE COVER to read "MTEL." This book was created with you in mind. People with learning differences, those who need help with ESL, and many others with and without special issues have had great success with ETI's programs and study materials—our students' passing rates increase over 500%. The curriculum is straightforward and concise, and it builds upon itself to help with the learning process. The students who have been through ETI's MTEL (Massachusetts Tests for Educator Licensure) programs since 1999 say that it is the best in Massachusetts. They know; they have been through them all. The author's over 1500 students have offered experiences, suggestions, and feedback that are integrated in the strategies and skills presented. This book is important because it includes all of the skills you need to pass this exam. Nothing extra is included, and everything that is included is essential. The strategies are tested and approved by hundreds of test takers who have provided feedback and novel ideas over the last ten years.

Materiality and Space focuses on how organizations and managing are bound with the material forms and spaces through which humans act and interact at work. It concentrates on organizational practices and pulls together three separate domains that are rarely looked at together: sociomateriality, sociology of space, and social studies of technology. The contributions draw on and combine several of these domains, and propose analyses of spaces and materiality in a range of organizational practices such as collaborative workspaces, media work, urban management, e-learning environments, managerial control, mobile lives, institutional routines and professional identity. Theoretical insights are also developed by Pickering on the material world, Lyytinen on affordance, Lorino on architecture and Introna on sociomaterial assemblages in order to delve further into conceptualizing materiality in organizations.

Celebrate the thirtieth anniversary of the Newbery Honor-winning survival novel Hatchet with a pocket-sized edition perfect for travelers to take along on their own adventures. This special anniversary edition includes a new introduction and commentary by author Gary Paulsen, pen-and-ink illustrations by Drew Willis, and a water resistant cover. Hatchet has also been nominated as one of America's best-loved novels by PBS's The Great American Read. Thirteen-year-old Brian Robeson, haunted by his secret knowledge of his mother's infidelity, is traveling by single-engine plane to visit his father for the first time since the divorce. When the plane crashes, killing the pilot, the sole survivor is Brian. He is alone in the Canadian wilderness with nothing but his clothing, a tattered windbreaker, and the hatchet his mother had given him as a present. At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start over from scratch when a tornado ravages his campsite. When Brian is finally rescued after fifty-four days in the wild, he emerges from his ordeal with new patience and maturity, and a greater understanding of himself and his parents.

MTEL English as a Second Language (ESL) Study Guide: Test Prep and Practice Test Questions for the ESL (54) Exam will provide you with a detailed overview of the MTEL ESOL exam, so you know exactly what to expect on test day.
