Contains a FREE easy-to-use CD-ROM with fully editable worksheets, networkable photos from the coursebook and answers to student quizzes.

For over fifty years I was working in hairdressing and beauty salons. During this time I have trained many people to apply eyelashes. To add to my credits I was chosen to write both the Australian and the international beauty industry assessment and training programs for the Government Standards Association.I am passionate about this industry and my passion extends to the joy of training others. I do not claim to be a talented author but I do claim to be a wonderful teacher. Allow me to share with you what happens to me during an eyelash extension, procedure. A truly peaceful emotion centres my being. A feeling of utopia unfolds as I watch the process of enhancing the face of a client. It is an amazing joyous feeling. It is exciting. That's why clients can become addicted to having their eyelashes extended. It is a lovely feminine course of action. A client having beautiful eyelashes can become addictive. Giving them an emotional lift will flow onto you. Therefore you need to do it right so they can continue to feel like a very pretty woman. Do not turn this into a burden for them. Eyelash extensions lift the entire face giving it a more youthful appearance. If you gain 10% of the joy that I have experienced - you will be a very happy person and love your work. If you slap - the eyelashe extensions on causing eye problems and eyelashes to fall out quickly you will have complaining clients and that turns your day into a nightmare.For you to become an expert at eyelash extensions and gain a good reputation - as a professional eyelash extension expert. You must understand the basics of eye anatomy, eyelash diseases and most importantly the natural eyelash type to attach eyelashes to.We cannot cover all you need to know here in this course. Most of you will have already studied skin science and anatomy. However, we have supplied you with enough information to tease your appetite for knowledge. It is imperative to research your new skills. And more so to practice the use of your tools so you can gain speed.Watch the videos we have recommended in this manual before you begin and again every few months to refresh your knowledge. At Beauty School Books Distance Learning Academe we strive to produce experts. The more you learn about your new skill, the more professional you will become. The quicker you become a professional the better. Practice many times as per the practice instructions before you begin practicing on humans. Before you begin eyelash extension it is important to note that, to gain insurance you will be expected to have completed other forms of beauty therapy training.WRBCS409A Apply knowledge of skin science to beauty therapy treatments. Which is part of the WRB04 Beauty Training Package.It is a core unit for the following qualifications: -WRB40104 Certificate IV in Beauty Therapy-WRB50104 Diploma of Beauty TherapyThe guide has been designed to help you develop the skills and knowledge required to apply the principles of eyelash grafting to beauty therapy treatments. We expect you have a good knowledge of: How to apply knowledge of skin science to beauty therapy treatments1.Apply knowledge of skin disorders to beauty therapy treatments.2.Promote skin health and care.3.Know and understand eyelash growth cycle.4.Know which eyelash to attach the grafted lash to.5.Check that you have extremely good eyesight.6.Without these elements of competency you should not be considering eyelash extensions as a trade.Identifying how the skin grows and develops as well as changes that affect the skin over time, will help you to develop an under-standing of the affects of a range of different beauty therapy treatments and the techniques that are applied in the performance of these treatments.

Covering areas such as nutrition and lifestyle, and spa treatments as well as all the main therapies, this book will support you in your day-to-day work. The anatmoy and physiology section has been completely revised to include extensive diagrams of all body systems." - back cover.

Whether studying for an Edexcel, OCR or AQA award, these textbooks, supported by a Tutor's Resource File, cover all the material needed for your chosen specification.

From accountant to zoologist, this new edition of The A-Z of Careers and Jobs is your one-stop shop for insightful guidance on more than 300 different career areas in the UK. This book is a quick and informative way to find out about what jobs and careers are out there, from traditional roles to new opportunities in the digital world. For those looking for their first job after school or university, or for anyone considering a change of career, this book provides reliable and up-to-date advice on a wide range of professions to help you choose the right path for you. The A-Z of Careers and Jobs covers the practical issues you need to understand, such as the extent of job opportunities in each industry, what personal skills are needed, what experience is required, entry qualifications, training, as well as typical earnings and starting salaries. In an ever more competitive and changing job market, information will help maximize your chances of success. This book is designed to help identify what personal strengths fit to what kinds of work, what skills you should highlight on a CV and what you need to know about each job. This handy and informative reference guide is also a valuable resource for careers advisers working in schools, colleges and universities who need to keep track of new developments - such as new roles and routes of entry, professional associations and exams - to offer the very best guidance to today's job hunters.
