This new edition covers many significant changes impacting the petroleum industry including important updates such as current industry practice issues from a proprietary survey conducted by the Institute of Petroleum Accounting, and practical guidance on new standards of revenue recognition, joint arrangements, consolidated financial statements, and disclosure of interests in other entities which are of critical importance to those involved or interested in the petroleum industry. New chapters covering midstream operations, master limited partnerships, and SEC considerations have been added. The updated text will also address numerous operational issues that continue to evolve with the demand for capital, inherent industry risks, and the impacts of product price fluctuation.

Every company has a personality. Does yours help or hinder your results? Does it make you fit for growth? Find out by taking the quiz that ' s helped 50,000 people better understand their organizations at OrgDNA.com and to learn more about Organizational DNA. Just as you can understand an individual ' s personality, so too can you understand a company ' s type—what makes it tick, what ' s good and bad about it. Results explains why some organizations bob and weave and roll with the punches to consistently deliver on commitments and produce great results, while others can ' t leave their corner of the ring without tripping on their own shoelaces. Gary Neilson and Bruce Pasternack help you identify which of the seven company types you work for—and how to keep what ' s good and fix what ' s wrong. You ' ll feel the shock of recognition ( “ That ' s me, that ' s my company ” ) as you find out whether your organization is:

- Passive-Aggressive ( “ everyone agrees, smiles, and nods, but nothing changes ” ): entrenched underground resistance makes getting anything done like trying to nail Jell-O to the wall
- Fits-and-Starts ( “ let 1,000 flowers bloom ” ): filled with smart people pulling in different directions
- Outgrown ( “ the good old days meet a brave new world ” ): reacts slowly to market developments, since it ' s too hard to run new ideas up the flagpole
- Overmanaged ( “ we ' re from corporate and we ' re here to help ” ): more reporting than working, as managers check on their subordinates ' work so they can in turn report to their bosses
- Just-in-Time ( “ succeeding, but by the skin of our teeth ” ): can turn on a dime and create real breakthroughs but also tends to burn out its best and brightest
- Military Precision ( “ flying in formation ” ): executes brilliant strategies but usually does not deal well with events not in the playbook
- Resilient ( “ as good as it gets ” ): flexible, forward-looking, and fun; bounces back when it hits a bump in the road and never, ever rests on its laurels

For anyone who ' s ever said, “ Wow, that ' s a great idea, but it ' ll never happen here ” or “ Whew, we pulled it off again, but I ' m tired of all this sprinting, ” Results provides robust, practical ideas for becoming and remaining a resilient business. Also available as an eBook From the Hardcover edition.

"This Seventh Edition is filled with authoritative advice on the financial reporting, accounting, and control situations unique to not-for-profit organizations. It contains discussions of the accounting and reporting guidelines for different types of organizations, complete guidance on tax and compliance reporting requirements, illustrated explanations of various types of
