Everything you need to start and manage a non-profit Starting and Managing a Nonprofit Organization is written to help anyone who's just getting their toes wet in the sector get up to speed on the critical information needed to protect their nonprofit's tax-exempt status—and avoid the many legal traps out there that you probably didn't know exist. Packed with checklists and step-by-step guidance, Starting and Managing a Nonprofit Organization demystifies intricate legal issues with plain-English language explanations for non-legal professionals of the statutes, regulations, court opinions, and other rules comprising nonprofit law. Nonprofits must comply with stringent federal and state laws due to their special exempt status; the government's ultimate threat is revocation of a nonprofit's tax-exempt status, which usually means the nonprofit's demise. Covers all aspects of federal and state nonprofit law Discusses significant contemporary issues, including commerciality, private benefit, governance, and unrelated business Provides summaries of current IRS ruling policies Includes procedures and a glossary of legal terms for fail-safe compliance Written by the country's legal leading authority on tax-exempt organizations, Starting and Managing a Nonprofit Organization is the reference you'll want to keep close by as you navigate your way through the world of nonprofit and the law.

Practical business and management advice to get a nonprofit up and running and — most importantly — keep it going.

MANAGING NONPROFIT ORGANIZATIONS This essential resource offers an overall understanding of nonprofits based on both the academic literature and practitioner experience. It shows how to lead, manage, govern, and structure effective and ethical nonprofit organizations. *Managing Nonprofit Organizations* reveals what it takes to be entrepreneurial and collaborative, formulate successful strategies, assess performance, manage change, acquire resources, be a responsible financial steward, and design and implement solid marketing and communication plans. "Managing Nonprofit Organizations is the only introductory text on this subject that manages to do three critical things equally well: It's comprehensive, covering all the key topics leaders of NPOs need to know about; it's practical, providing lots of examples, case incidents, and experiential exercises that connect the content to the real world; and, best of all (and most unique compared to others), it's research-based, drawing on the latest and best empirical studies that look into what works and doesn't work in the world of nonprofit management." —Vic Murray, professor, School of Public Administration, University of Victoria "This book is a rarity—a text that can be used both as the focus for academic study and as a source of stimulating ideas for those practitioners who want to explore theories about management and how they can be applied so they can do a better job. Tschirhart and Bielefeld have explained all aspects of nonprofit management and leadership in a way that will stimulate as well as inform." —Richard Brewster, executive director, National Center on Nonprofit Enterprise, Virginia Tech University "Managing Nonprofit Organizations presents a comprehensive treatment of this important topic. The book satisfies the competencies and curriculum guidelines developed by NASPAA and by NACC and would be ideal for instruction. The book maintains its commitment to informing management and leadership throughout the nonprofit sector." —Jeffrey L. Brudney, Albert A. Levin Chair of Urban Studies and Public Service, Cleveland State University "This is an important book, written by two of the leading scholars in the nonprofit studies field. Nonprofit managers, board members, funders, educators, and others will find *Managing Nonprofit Organizations* extremely valuable." —Michael O' Neill, professor of nonprofit management, University of San Francisco "Here's the book that my students have been asking for—just the right mix of theory presentation, research findings, and practical suggestions to serve the thoughtful nonprofit management practitioner. It will inform, instruct, and ultimately, inspire." —Rikki Abzug, professor of management, Anisfield School of Business, Ramapo College

"Why getting results should be every nonprofit manager's first priority A nonprofit manager's fundamental job is to get results, sustained over time, rather than boost morale or promote staff development. This is a shift from the tenor of many management books, particularly in the nonprofit world. *Managing to Change the World* is designed to teach new and experienced nonprofit managers the fundamental skills of effective management, including: Managing specific tasks and broader responsibilities; Setting clear goals and holding people accountable to them; creating a results-oriented culture; hiring, developing, and retaining a staff of superstars. Offers nonprofit managers a clear guide to the most effective management skills: addressing performance problems and dismissing staffers who fall short Shows how to address performance problems, dismiss staffers who fall short, and the right way to exercising authority Give guidance for managing time wisely and offers suggestions for staying in sync with your boss and managing up This important resource contains 41 resources and downloadable tools that can be implemented immediately" --
