The beginning focuses on arriving populations which affected the language and religions of Britain. After that the focus is on the development of the Monarchy, church and Parliament. Major battles and significant periods are covered, including the civil war, the industrial revolution and the Empire. There is a lot of information about WWI and WWII and after WWII the chapter focuses on the governments of the UK and devolution in Northern Ireland, Wales and Scotland.

Including 3 full length exams, structured and styled exactly like what you will find on the real test, this study guide is designed to increase and maximize scores for any student regardless of current subject knowledge and skills. The current AP Art History exam includes approximately 500 works of art, analyzed from a historical perspective. The redesigned exam released for the 2015-2016 school year, emphasizes critical analysis of works of art and understanding of relationships among global artistic traditions. The new curriculum for the AP Art History course includes fewer works of art, reducing the total number included in the class from 500 to 250 and incorporates a slightly higher percentage of non-Western works of art. While there are some changes to the overall content and structure of the exam, the skills and focus of the course and exam are largely unchanged. This review guide is intended to meet the needs of students testing in 2014, 2015, 2016 and beyond. This AP Art History exam cuts through the clutter and eliminates the fluff found in other study guides. This results in more effective time, which in turn means higher scores on the test. Includes 3 FULL LENGTH AP Art History practice test for all concepts!

This book introduces readers to the fascinating Frederick Douglass, a man born a slave. Douglass taught himself to read, then escaped from slavery to become one of the abolitionist movement's greatest leaders. In addition to telling the story of his life, this biography examines the evolution of his thought and his changing relationships with contemporaries such as William Lloyd Garrison and Abraham Lincoln. Featuring intriguing details about the period before, during, and just after the Civil War, this compelling and inspiring read is rounded out by a liberal use of primary sources.
