Arab, one whose native language is Arabic. In modern usage, it embraces any of the Arabic-speaking peoples living in the vast region from Mauritania, on the Atlantic coast of Africa, to southwestern Iran, including the entire Maghrib of North Africa, Egypt and Sudan, the Arabian Peninsula, and Syria and Iraq.

Named Best Book of the Year by the Financial Times, the Economist and the Atlantic In this definitive history of the modern Arab world, award-winning historian Eugene Rogan draws extensively on five centuries of Arab sources to place the Arab experience in its crucial historical context. In this updated and expanded edition, Rogan untangles the latest geopolitical developments of the region to offer a groundbreaking and comprehensive account of the Middle East. The Arabs is essential reading for anyone seeking to understand the modern Arab world. "Deeply erudite and distinctly humane."-Atlantic "An outstanding, gripping and exuberant narrative . . . that explains much of what we need to know about the world today."-Simon Sebag Montefiore, Financial Times

Eugene Rogan has written an authoritative new history of the Arabs in the modern world. Starting with the Ottoman conquests in the sixteenth century, this landmark book follows the story of the Arabs through the era of European imperialism and the Superpower rivalries of the Cold War, to the present age of unipolar American power. Drawing on the writings and eyewitness accounts of those who lived through the tumultuous years of Arab history, The Arabs balances different voices - politicians, intellectuals, students, men and women, poets and novelists, famous, infamous and the completely unknown - to give a rich, complex sense of life over nearly five centuries. Rogan's book is remarkable for its geographical sweep, covering the Arab world from North Africa through the Arabian Peninsula, and for the depth in which it explores every facet of modern Arab history. Charting the evolution of Arab identity from Ottomanism to Arabism to Islamism, it covers themes including the conflict between national independence and foreign domination, the Arab-Israeli struggle and the peace process, Abdel Nasser and the rise of Arab Nationalism, the political and economic power of oil and the conflict between secular and Islamic values. This multilayered, fascinating and definitive work is the essential guide to understanding the history of the modern Arab world - and its future.

In 1914 the Ottoman Empire was depleted of men and resources after years of war against Balkan nationalist and Italian forces. But in the aftermath of the assassination in Sarajevo, the powers of Europe were sliding inexorably toward war, and not even the Middle East could escape the vast and enduring consequences of one of the most destructive conflicts in human history. The Great War spelled the end of the Ottomans, unleashing powerful forces that would forever change the face of the Middle East. In The Fall of the Ottomans, award-winning historian Eugene Rogan brings the First World War and its immediate aftermath in the Middle East to vivid life, uncovering the often ignored story of the region's crucial role in the conflict. Bolstered by German money, arms, and military advisors, the Ottomans took on the Russian, British, and French forces, and tried to provoke Jihad against the Allies in their Muslim colonies. Unlike the static killing fields of the Western Front, the war in the Middle East was fast-moving and unpredictable, with the Turks inflicting decisive defeats on the Entente in Gallipoli, Mesopotamia, and Gaza before the tide of battle turned in the Allies' favor. The great cities of Baghdad, Jerusalem, and, finally, Damascus fell to invading armies before the Ottomans agreed to an armistice in 1918. The postwar settlement led to the partition of Ottoman lands between the victorious powers, and laid the groundwork for the ongoing conflicts that continue to plague the modern Arab world. A sweeping narrative of battles and political intrigue from Gallipoli to Arabia, The Fall of the Ottomans is essential reading for anyone seeking to understand the Great War and the making of the modern Middle East.

A riveting, comprehensive history of the Arab peoples and tribes that explores the role of language as a cultural touchstone This kaleidoscopic book covers almost 3,000 years of Arab history and shines a light on the footloose Arab peoples and tribes who conquered lands and disseminated their language and culture over vast distances. Tracing this process to the origins of the Arabic language, rather than the advent of Islam, Tim Mackintosh-Smith begins his narrative more than a thousand years before Muhammad and focuses on how Arabic, both spoken and written, has functioned as a vital source of shared cultural identity over the millennia. Mackintosh-Smith reveals how linguistic developments--from pre-Islamic poetry to the growth of script, Muhammad's use of writing, and the later problems of printing Arabic--have helped and hindered the progress of Arab history, and investigates how, even in today's politically fractured post-Arab Spring environment, Arabic itself is still a source of unity and disunity.

A theoretically informed account of how the Ottoman state redefined itself during the last decades of empire.

A re-examination of the Arab-Israeli war of 1948 written by leading Arab, Israeli and western scholars.

From Algeria and Libya to Egypt and Syria, the Arab world commands Western headlines, even as its complex politics and cultures elude the grasp of most Western readers and commentators. Perhaps no other region is so closely linked to contemporary U.S. foreign policy, and nowhere else does the unfolding of events have such significant consequences for America. A Concise History of the Arabs argues that the key to understanding the Arab world today—and in the years ahead—is unlocking its past. John McHugo takes the reader on a journey through the political, social, and intellectual history of the Arabs from the Roman Empire right up to the present day. His sweeping and fluent account describes in vivid detail the mission of the Prophet Muhammad, the expansion of Islam, the origins of Shiism, medieval and modern conflicts, the fall of the Ottoman Empire, the interaction with Western ideas, the struggle to escape foreign domination, the rise of Islamism, and the end of the era of dictators. McHugo reveals how the Arab world came to have its present form, why change was inevitable, and what choices lie ahead following the Arab Spring. This deeply informed and accessible account is the perfect entry point for anyone seeking to comprehend this vital part of the world.

Long before Muhammed preached the religion of Islam, the inhabitants of his native Arabia had played an important role in world history as both merchants and warriors Arabia and the Arabs provides the only up-to-date, one-volume survey of the region and its peoples, from prehistory to the coming of Islam Using a wide range of sources - inscriptions, poetry, histories, and archaeological evidence - Robert Hoyland explores the main cultural areas of Arabia, from ancient Sheba in the south, to the deserts and oases of the north. He then examines the major themes of *the economy *society *religion *art, architecture and artefacts *language and literature *Arabhood and Arabisation The volume is illustrated with more than 50 photographs, drawings and maps.

Chronicles the history of Arab civilization, looking at the beauty of the great mosques, the importance attached to education, the achievements of Arab science, the role of women, internal conflicts, and the Palestinian question.

The Arabs is widely considered one of the essential books for understanding the Middle East and the peoples who live there. David Lamb, who spent years as a correspondent in Cairo, explores the Arabs' religious, political, and cultural views, noting the differences and key similarities between the many segments of the Arab world. He explains Arab attitudes and actions toward the West, including the growth of terrorism, and situates current events in a larger historical backdrop that goes back more than a thousand years. Now thoroughly revised and updated, The Arabs takes the story up to 2001. Lamb analyzes the developments that led to the attacks on the World Trade Center and the Pentagon, and helps the reader to understand how things got to that point. A veteran journalist, Lamb combines his extensive experience in covering international politics with his deeply informed insider's knowledge to provide an intimate portrait of the Arab world today.
