Olson/Hergenhahn presents a comprehensive, unbiased approach to the major theories of personality covering fewer theories in more depth by focusing on pioneering, classic theories of personality representing the psychoanalytic, sociocultural, sociobiological, evolutionary, humanistic, and existential paradigms. Primary sources and the theorists' own words are used to describe and advance their theories with both a "contributions" and "criticisms" section to provide balance and a variety of ...

Introduction to Theories of Personality, An, 8th Edition

The 8th edition of Theories of Personality follows in the tradition of the previous versions, by centering on the premise that personality theories are a reflection of the unique cultural background, family experiences, personalities, and professional training of their originators. The book begins by acquainting students with the meaning of personality and providing them

Personality, Eighth Edition Our approach to the study of personality is to provide a thorough coverage of each of the major theories and to compare and integrate the various approaches. In deciding which theories to discuss, we have chosen those that have had the most significant impact on the field and that are of greatest current importance to our understanding of personality.
