Trading con Excel: Cesarini, Fabrizio, Petrelli, Donata ...

Once you have your data into Excel for trading purposes, then what to do after that? You can configure a position-keeper, favorites, P&L tool, historical trading log, or a big pricing data set. These can then be used for present and past risk analysis, calculating your trading performance using stats like success rate, Treynor ratio, maximum drawdown, etc.

---

Using Excel for Trading | Excel Trading and Investing ...

When trades are entered, Excel displays their order status and automatically checks for any setup errors. Displaying market data and your trade entries side by side (just as they are in Interactive Brokers) gives you the confidence you need to run your automated trading desk and have Excel do all the heavy lifting. 6.

### Trading con Excel by Fabrizio Cesarini, Donata Petrelli ...

Pair Trading Excel Sheet In this Excel sheet, we are going to identify Pair Trading candidates by comparing their current Price Ratio with 50 days average Price Ratio. A pre-defined divergence of the price ration from the 50 days average would signal a trade. When that happens, one has to go long in one Stock and short the other.
